## EXPERIENCE

**Firm Name:** Al Fatah Group

**Duration:** 1 year +

**[Jul 24 - Present]**

**Experience:** My primary responsibility is developing the new ERP (Enterprise Resource Planning) software for the organization. The application uses React.js, Tailwind CSS, Material UI for the frontend, .NET Core for the backend, and SQL Server for the database. As a Frontend Developer, I focus on building user-friendly interfaces, managing state efficiently, and integrating APIs to ensure smooth interaction between the frontend and backend. In addition to my ERP development work, I also provide technical support and maintenance for the company's legacy system, which is built using ASP.NET Web Forms.

**Firm Name:** Innovative IT

**Duration:** 12 months

**[Jan 2023 - Dec 2023]**

**Experience:** I worked at Innovative IT, contributing to projects like G-Spa, AfterHoursBD and Fare.com.bd, where I gained experience in React development and project management through collaborative team efforts.
